# HOW TO WORK OUT CHORDS

Cheats version = every other letter

BUT this does not say if it's a # or b

*Count 4 (including # & b) to check IF #/b in middle (major only)*

| <b><u>MAJOR = happy</u></b> |               | <b><u>minor = sad</u></b> |  |
|-----------------------------|---------------|---------------------------|--|
|                             |               |                           | <i><u>(only middle symbol different)</u></i> |
| C                           | <u>C</u> E G  | Cm                        | C <u>E<sub>b</sub></u> G                     |
| F                           | <u>F</u> A C  | Fm                        | F <u>A<sub>b</sub></u> C                     |
| G                           | <u>G</u> B D  | Gm                        | G <u>B<sub>b</sub></u> D                     |
| D                           | <u>D</u> F# A | Dm                        | D F A  |
| A                           | <u>A</u> C# E | Am                        | A C E  |
| E                           | <u>E</u> G# B | Em                        | E G B  |
