## **Full Time Teacher of Mathematics from September 2020**

### **NQT/MPR/UPR**

We are looking for an enthusiastic and committed teacher of mathematics to join our friendly and supportive mathematics team. This would be an ideal opportunity for a newly qualified teacher but whether newly qualified or experienced, the successful candidate will be expected to teach both KS3 and KS4 mathematics.

Students enjoy mathematics and achieve consistently excellent outcomes in their GCSE examinations. This post represents an excellent professional development opportunity for an enthusiastic and committed teacher to develop their skills in the classroom by working as part of a strong and dedicated team of mathematicians. The most important thing we are looking for is potential.

We believe wholeheartedly in helping teachers to improve their classroom practice and our CPD programme is incredibly strong. Every teacher gets to work with one of our highly experienced teacher coaches to help them to develop their practice and become the best teacher they can be. We are also committed to exploring evidence based practice and current research in education.

Aylsham High is one of the most consistently successful schools in Norfolk and our work is underpinned by the values of the co-operative movement. Our cohort is truly comprehensive and we are committed to being an inclusive, welcoming and supportive school community. The school is blessed with excellent staff, great facilities and a wonderful group of students. The support that we enjoy from parents and the wider community is second to none. We believe that if we are going to maintain and improve on the school's achievements, we have to continuously evaluate our approach to teaching and learning and this is a theme that runs throughout our school improvement planning.

If you would like to join a successful and well-resourced department in a genuinely warm and friendly school with a tremendous community attitude then we would love to hear from you.
