

**2023 INTERNAL EXAM: Chemistry**  
**Year 10**

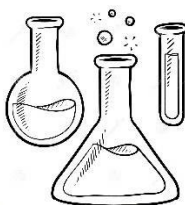

**Topics covered:**

Topic 0 – Formulae, equations and hazards

Topic 1 – Key concepts in chemistry

Topic 2 – States of matter and mixtures

Topic 2 – Methods of separating and purifying substances

Go to <https://aylshamhighchemistry.com/workbooks> to download the workbook

**You will be tested on:**

40 % questions based on knowledge and understanding of both theory from the specification and the core practicals.

40% questions based on application of knowledge and understanding in novel theoretical and practical contexts.

20% question based on analysing information and using that to interpret and evaluate, or draw conclusions, using your understanding of the underlying science.

**TO SUPPORT YOUR REVISION**

**Year 10 Google classroom**

In the year 10 google classroom you will find numerous resources and links to help you revise.

- 1) Revise the core questions 1-65 by testing yourself using either quizlet [Quizlet - Aylsham High Chemistry](#), carousel learning or flashcards.
- 2) Work through the revision guide issued in class to apply the core knowledge.
- 3) Test your application further by completing google quizzes on topic 0-1 on [Google Quiz Forms - Aylsham High Chemistry](#) and by using the maths skill study pack on carousel learning
