

Health and social care homework policy

- All students have a copy of the **key terms/words** for RO32. They are fully aware that these words need to be learnt and understood for their exam unit.
- Each lesson we will recap these words. Students will be asked to show their understanding of these words but writing in the back of yellow work books, which are in class.
- Students mark these themselves and manage their own scoring.
- These words are also on Google classroom and reminders are sent home via SIMS.
- Students can email me if they are having learning issues with these words. Students will need to ensure that examples are given to support the understanding of words.
- **Exam style questions** will be slowly introduced once key words/terms are learnt.
- It is essential these words are learnt in depth, with examples, for students to be successful.
- Students are also encouraged to use Quizlet for revising. This can be accessed via **aylshamhealth**
