*Part of the Aylsham Learning Federation  
It takes a Whole Community to Educate a Child*

14 June 2022

Dear Parent/Carer,

## Key Stage 4 Science Workbooks for Academic Year 2022-23

I am the Head of Science and I would like to support our work together by sharing with you key information regarding your child's KS4 Chemistry studies so that we can best support your child during the school year.

At the start of each term your child will be issued a workbook to use in lessons which contains all the resources needed for the year along with QR codes for each lesson should your child miss a lesson. The expectation is that your child will attend each lesson with this workbook and if after 3 lessons without it, a new copy will have to be purchased for a small cost through the department or parent pay.

A very important aspect will be for your child to learn the key core knowledge for this subject. To help with this each student will have a copy of these in their workbook with answers and it will also be available on the website. Part of the homework will also be based on learning these questions. The key to learning this will be to review the content on a regular basis. We will be reviewing this learning as part of our lessons but it will be very important for you to support your child at home by reviewing this with them. Learning this information will mean that we can build on this knowledge in class so that students understand the knowledge and can apply it as required.

The workbook also contains all the homework that your child will be set during the year along with a QR code with a video link so your child has instant access to help to complete this if they become stuck.

Further support towards your child's studies can also be found on [www.Aylshamhighchemistry.com](http://www.Aylshamhighchemistry.com) where you will find additional videos, links to google quizzes and to quizlet revision cards.

Many thanks for your support with this and please do not hesitate to contact me further if you have any further questions.

Yours sincerely,

Charlene Nicholls

Head of Science

Executive Headteacher: Mr D Spalding B.A. (Hons) M.Ed. (Cantab)

Deputy Headteachers: Mr C Bridge B.Sc. (Hons), Mr P Brockington B.Sc. (Hons) M.A., Mrs K Garnham B.A. (Hons) M.A.

Director of Business and Community Strategy: Mrs J Tuttle
